

TECHNICAL NOTE TN-1323-SR
PGM800 V4.31 Software Release Note

15 November 2007

Applicability T800 II, T803-xx

1. Introduction

This release allows the comma decimal separator as used in some European countries to be used when programming T800 and T803 modules.

2. Changes and Known Issues

Changes

- Comma decimal separator can now be used.
- Some tables internal to the T803 were found to be corrupt. This data is now refreshed each time the T803 is programmed. Previously this was not done unless a new module was created.

Known Issues

- Cannot set T803 selcall tone period timing.
- Selectable Guard Tone notch cannot be disabled in 2 wire mode.
- T800 series 1 EPROM files may not be created correctly. (Use PGM800 V2.12 to create EPROM files).
- Copy and Paste doesn't work from channel table tab.

3. Issuing Authority

Name and Position of Issuing Officer

Jeff Northcott
Senior Technical Support Engineer
